

BLOO NEWS

Bloo House, a prep school based in Hersham, prides itself not only on its academic achievements, but also its ability to provide a nurturing environment for its pupils.

As of last September, to support this philosophy, the school brought in a team of health professionals to guide parents with all aspects of child development, ranging from nutrition and fitness to emotional and general wellbeing.

Heading up the team of health practitioners is Tone Tellefson, an experienced Chiropractor, who specialises in child healthcare and runs her own clinic in Milford, Surrey. As well as Tone providing chiropractic healthcare to children

of all ages, her team also provides dietary advice, sports and physical therapy and a range of other holistic services to Bloo House parents.

Melissa Carter, Principal at Bloo House commented, 'our pupils consistently achieve academically, but at Bloo House, we believe that education is not just about academics. As a school, not only is it our duty, but it's also essential that we work with parents and provide appropriate support for their child's emotional, nutritional and physical development.'
